

NIKHIL KUMAR MEENA

Technical Product Manager  

Financial District Hyderabad | 8800487634 | Nikhilmeena769@gmail.com

CAREER SUMMARY:

Technical Product Manager with 4+ years at ICICI Bank, building payment products for 10M+ users (~15M monthly transactions). IIT Delhi & IIT Kanpur graduate owning Send Money (Fund Transfer), NBBL, and RBI compliance initiatives across 15+ engineers — from roadmap through production release.

WORK EXPERIENCE:

iMobile Pay Application | ICICI BANK LTD.

TECHNICAL PRODUCT MANAGER | APRIL, 2025 - PRESENT

- **Own strategic payment portfolio** across Send Money, NBBL merchant integrations, and overseas fund transfer redirection — serving 10M+ iMobile Pay customers.
- Delivered **NPCI-compliant NBBL** integrations enabling merchant payments through QR Scan and Intent-based flows, expanding payment acceptance capabilities on iMobile Pay.
- Lead a team of 2 analysts and collaborate with **15+** engineers to drive product delivery, release governance, CI/CD adoption, and stakeholder management.
- Manage RBI audit observations, security mandates, and PII data-masking initiatives, ensuring regulatory compliance and the secure handling of customer information.

TECHNICAL ANALYST | MARCH, 2023 - APRIL, 2025

- Owned the end-to-end **Send Money** module in **iMobile Pay**, supporting **10M+** customers and **~15M** monthly transactions across funds transfer, beneficiary management, authentication, transaction history, and limit management.
- Managed delivery of Send Money enhancements across **31** sprints, leading backlog prioritisation, sprint planning, daily scrums, blocker resolution, and release sign-offs.
- Defined and validated **35+** API integrations through BRS documents, Swagger reviews, Postman testing, and technical sign-offs for UAT, CUG, and Production releases.
- Drove production stability through RCA and monitoring using **Dynatrace** and **Vulogx**, reducing Send Money dashboard latency from **3–4** seconds to under **1** second while maintaining **<0.1%** transaction failures.

MANAGEMENT TRAINEE | JULY, 2022 - MARCH, 2023

- Analysed business requirements for **Send Money** journeys in the **iMobile Pay** Application
- Created **50+** user stories and acceptance criteria, facilitating discussions across business, design, and technology teams.
- Conducted Figma walkthroughs to validate user journeys, identify gaps, and align requirements before development.
- Defined API requirements by mapping UI needs with backend systems such as DEH, IMPS Switch, Core Banking Systems, Falcon, and Apigee Gateway.

TRAINING & CERTIFICATIONS

- Project Management Program – Jan 2025 • Technology Architecture L2 – Feb 2025
- Data Analytics & Data Visualization L2 – Apr 2025 • DevOps L3 – Feb 2026
